

Steps for Following Along with Our Online Worship Service

You can either use one device or two devices -- one for the worship service audio and one for the service bulletin. Note: You may want to print out the bulletin so you have it in hand as you listen to the audio.

If using two devices, follow step 1 to bring up the bulletin on the first device and step 2 to start the worship service audio on the second.

If you are using one device, follow steps 1-3 below.

1. Click on the dated Service Bulletin link, which you'll find under the name of the Sermon Series. In our example below, it is "Praying with Paul" and the service bulletin date is March 15. The bulletin pdf will open in a second tab.

Click the dated Service Bulletin link.

3. Now click back to the service bulletin tab and follow along. If you need to put the worship service audio on pause, simply go back to the audio player and hit the same button on the left to pause it.

You're set!
